5. INFORMASI SISTEM PENDIDIKAN TINGGI DI INDONESIA
Information on the Function of Qualification

5.1 Jenis Pendidikan Tinggi:

Pendidikan tinggi di Indonesia mencakup program pendidikan diploma, sarjana, magister, spesialis, dan doktor yang diselenggarakan oleh suatu perguruan tinggi. Umumnya, perguruan tinggi di Indonesia berbentuk universitas, institut, sekolah tinggi, politeknik, akademi, atau akademi komunitas. Universitas, institut, dan sekolah tinggi dapat menyelenggarakan program pendidikan akademik dan vokasi, sedangkan politeknik, akademi, dan akademi komunitas hanya dapat menyelenggarakan program pendidikan vokasi.

5.2 Kualifikasi Pendidikan Tinggi:

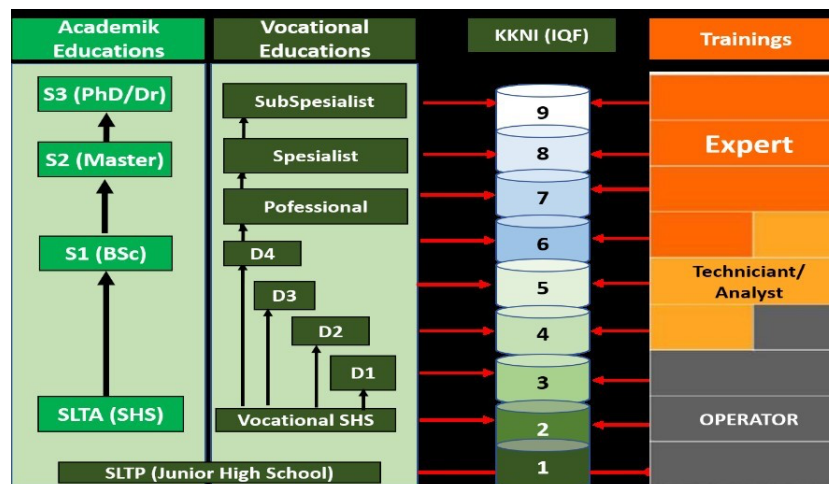

Berdasarkan Kerangka Kualifikasi Nasional Indonesia (KKNI) terdapat 9 level kualifikasi dari kualifikasi Level 1 hingga Level 9. Setiap level kualifikasi dapat dicapai melalui pendidikan formal, baik pendidikan akademik ataupun vokasi/profesi, dan pelatihan-pelatihan (Gambar KKNI). Pendidikan Sarjana (S1) harus mencapai kualifikasi Level-6, setara dengan pendidikan vokasi Diploma-4. Lulusan pendidikan akademik Sarjana dapat meningkatkan level kualifikasinya melalui pendidikan akademik Magister (S2) sampai Doktor (S3), ataupun melalui pendidikan profesi sampai subspesialis (Level 9) serta melalui pelatihan-pelatihan dan uji-uji kompetensi.

Type of Higher Education:

Higher education in Indonesia includes diploma, bachelor, master, specialist, and doctoral education programs, which is organized by a higher education institution. Generally, higher education institutions in Indonesia are universities, institutes, colleges, polytechnics, academies, or community colleges. Universities, institutes, and colleges can carry out academic and vocational education programs, while polytechnics, academies, and community academies can only hold vocational education programs.

Qualification of Higher Education:

Indonesian Qualification Framework (IQF) has 9 levels of qualifications, from Level 1 up to Level 9. Every level of qualifications can be achieved through formal educations, either academic educations or vocational/professional educations, and also through competency trainings (Figure of IQF). Bachelor of science degree program (BSc program) must fulfill qualification of Level 6, which is equivalent with vocational education of Diploma-4. Graduates of BSc program can reach higher levels through academic educations of Master and Doctoral Programs, or through professional educations up to subspecialist (Level 9) and through trainings and competency tests

Universities, institutes, and colleges can carry out academic and vocational education programs, while polytechnics, academies, and community academies can only hold vocational education programs.

Qualification of Higher Education:

Indonesian Qualification Framework (IQF) has 9 levels of qualifications, from Level 1 up to Level 9. Every level of qualifications can be achieved through formal educations, either academic educations or vocational/professional educations, and also through competency trainings (Figure of IQF). Bachelor of science degree program (BSc program) must fulfill qualification of Level 6, which is equivalent with vocational education of Diploma-4. Graduates of BSc program can reach higher levels through academic educations of Master and Doctoral Programs, or through professional educations up to subspecialist (Level 9) and through trainings and competency tests
