FEES
USD200

Hello everybody!

First of all, thank you for reading our 2023 International Summer School Brochure.

Universiti Sultan Zainal Abidin (UniSZA), Malaysia offers many opportunities to expand your horizons and study abroad. You came to the right place to 'discover the world'.

Our summer school is where you can enrich your knowledge while enjoying your summer vacation. Attending a summer school is much more than gaining knowledge in a specific area.

You will gain knowledge about cultures and languages in one of the most beautiful states in Malaysia. You will certainly return home satisfied and with memories that will last a lifetime.

Hopefully, we've sparked your interest in going abroad!

The credited summer school program will be hosted by

- Faculty of Law and International Relations
- Faculty of Applied Social Sciences (FSSG)

The two-weeks program will have one (1) week online, and one (1) week compulsory attendance at Universiti Sultan Zainal Abidin, Malaysia

The fees are USD 200 that covers lectures, accommodations, foods, community services, cultural and historical visits.

The program will be delivered by renowned scholars in the field of humanities and social sciences.

The program assessments include group discussions and presentations.

"CONNECTING COMMUNITIES"

THEME 1

"Refugee Crisis: A Universal Challenge and the Roles of Southeast Asian Nations in Addressing it"

@

Faculty of Law and International Relations

This faculty will expose participants to the latest issues surrounding refugees in South East Asia through a series of modules include gender and refugees, international humanitarian assistance, media issues, and the protection and social integration of refugees.

The refugee issue is a universal humanitarian issue. Malaysia, Indonesia, and Thailand have been host countries for refugees in the past and continue to host refugees to varying degrees. These countries have seen an influx of refugees and asylum-seekers from various countries, most notably from Myanmar, Afghanistan, and other conflict-affected areas.

The refugee issue is not confined to Political Science students only. Students from other Social Sciences areas of studies such as Sociology, History, Management and Security should have a basis on this issue.

This Summer Camp opens a networking opportunity with humanitarian based- NGOs like MyCARE, MAPO, UNHCR.

THEME 2

**"Community Service: Collaborative Work
with Local Communities to Deal with
Communal Issues and Contribute to Well
Being"
@**

Faculty of Applied Social Science

This faculty will lead a portion of the summer course with a focus on community development and the well-being of communities in Terengganu.

Through a combination of various activities such as site visit and community activity, the students will be exposed to the way of life, culture and values of the local communities.

This credited course is an inbound credited mobility programme which provides the opportunity for participants to work collaboratively with communities to deal with communal issues.

In addition, this course aims to contribute to community's well-being. At the end of this course, students are expected to learn new knowledge and expand awareness, discover contemporaneous community related issues in order to appreciate the diversity of glocal culture and values in the real world setting.
